Specifications

Our Redwood decking is machined from high quality FSC or PEFC Scandinavian Redwood. Machined with a dual profile of grooved/reeded, it offers a perfect alternative to a paved garden patio area.

Scandinavian Redwood

FSC/PEFC kiln dried Scandinavian Redwood (Tanatone Brown Pressure Treated)

- 32 x 145mm x 3.6/4.2/4.8m Joinery grade Dual Decking
- 41 x 41 x 895mm Spindles (stop chamfered or turned)
- 44 x 66mm Grooved Handrail
- 32 x 66mm Grooved Baserail
- 8 x 41mm PSE Infill
- 82 x 82 x 1250mm Newel Posts (chamfered or turned)

FSC/PEFC kiln dried Softwood C16 graded Joists (Tanatone Brown Pressure Treated)

- 47 x 100mm x 3.6/4.2/4.8m
- 47 x 150mm x 3.6/4.2/4.8m

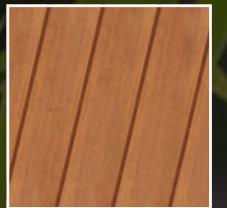

Our decking boards come pressure treated for exterior use above ground for added longevity.

Fused Bamboo Decking

Suitable for both small and large projects, CTECH® and XTR® Bamboo is a sustainable alternative to tropical hardwoods and composite products.

The bamboo is harvested from the forests of Asia after approximately four to six years of growth. A programme of replanting takes place to ensure a continuous supply.

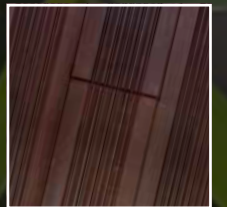

The bamboo is then taken to the mills where it goes through a vigorous selection process. It is then infused with patented ceramic technology to create a high quality long lasting exterior decking product.

CTECH®

Benefits of Bamboo:

- 100% FSC certified
- Environmentally Friendly
- Mould Resistance
- Fire Resistance
- Termite Resistance
- Class 1 Durability
- 30-50 year Life Expectancy
- Stable & Precise

XTR®

We offer the following specifications (including fixing clips):

- 18 x 137 XTR® (Espresso) Decking G1/G2
- 20 x 137 CTECH® (Cognac) Decking G1/G2

CTECH® (Cognac)

XTR® (Espresso)
